

Granit 1981i Wireless Industrial-Grade Full-Range Scanner

The Granit™ 1981i wireless industrial scanner features full-range area-imaging technology capable of reading both 1D and 2D barcodes from six inches (15 cm) to over 50 feet (15 meters). From poor quality 7.5 mil paper codes scanned at arm's length to 100 mil retro-reflective codes hanging from warehouse rafters, the 198Xi is built to read virtually all barcodes across its unmatched range, supporting maximum operator productivity in the harshest environments.

Description **Full-Range Area-Imaging Performance:**

Built Granit Tough:

Efficient Wireless Performance:

Easy to Use:

Single Scanning Solution:

Remote MasterMind™ Ready:

Scan virtually all 1D and 2D barcodes from 6 in (15 cm) to over 50 ft (15 m) away.

Rated IP65 and can withstand 5,000 tumbles from 3.2 ft (1 m) and 50 drops to concrete from 6.5 ft (2 m)

Bluetooth™ wireless technology provides freedom of movement up to 100 meters (330 feet) from base and reduces interference with other wireless systems.

A laser-spot aimer, omni-directional scanning, and center-decode capability take the guesswork out of scanning at extended ranges. Can replace and consolidate multiple purpose-built scanners in typical distribution center and warehouse environments.

Reduces total cost of ownership by providing a turnkey remote device management solution to easily manage and track usage of installed devices.
