Description

The SENSE-LiFe™ Dispensing Cart has been designed to fit in tight spaces yet still providing enough storage for a single ward. Thanks to a range of mounts, accessories, easy to clean surfaces and the option of choosing a powered or non-powered version, this cart offers total versatility.

This solution complements wards with EPR or EPMA facilities or allows a ward the tools to become compliant with these services should this become an option in the future.

SENSE-LiFe™ Technology

RDP's unique sensing power system ensures maximum efficiency of the LiFePO4 batteries

Fast recharge times

0-70% in 1 hour, 70-100% in 2 hours

Secure Electronic Entry

Digicode or RFID with key override for additional security

Printer and Scanner Support

A range of brackets available supporting the most popular of printers and scanners used

Slim Storage Trays

Specifically designed for use where space is a limiting factor

No Quibble Warranty

10 years on-site warranty cover in the UK as standard
