Description

LESS WEIGHT, MORE UPCS

ERGONOMIC BODY

Up to **33% lighter** than traditional models to reduce muscle fatigue among workers. Sometimes less is more.

Productivity From A New Angle

REVOLUTIONARY SCREEN

Designed to face the user while scanning, the larger screen eliminates the need to tilt and verify each scan, increasing efficiency on every scan.

LOSE THE KEYS, GAIN THE SPEED

VIRTUAL KEYBOARD

The all-touch keyboard allows users to type up to

40% faster with

60% fewer errors

compared to traditional push-button keyboards.

No Off Days and No Off Minutes

HOT SWAP BATTERY

Change to a charged battery **quickly and seamlessly** without powering down the device.

WORKS HOW YOU WANT IT

VERSATILE, MULTI-MODAL DESIGN

Scan quickly and effectively in any situation. The TC8000 allows for:

- Wearable or mounted scanning

- Push-to-talk communications with [Workforce Connect](#)

MOBILITY DNA

[GETS ALONG WELL WITH OTHERS](#)

Connect every strand of your mobility platform for a simplified, integrated solution with [Mobility DNA](#) — our suite of applications, development tools and administration utilities for Zebra mobile computers.

What would your workers do with an extra hour per day?

What makes the TC8000 so special?

Everything.

It's the ground-breaking all new warehouse mobile computer designed to deliver revolutionary productivity increases in the warehouse. In fact, on average, it saves 14%* per worker versus traditional form factors – it's like gaining an extra hour of productivity, per worker, per day.

And it's the only device on the market that simplifies it all — how your workers physically use the device and interact with your warehouse application.
